RECEIVED 07

M. B.

Founded 1955 Incorporated 1958

THE ENGINEERING INSTITUTION OF ZAMBIA
MEMBERSHIP CERTIFICATE

(EIZ ACT No. 17 of 2010)

This is to certify that

Nathan Moono

was admitted as

a

FULL TECHNICIAN

of

The Engineering Institution of Zambia

on the

REGISTRATION CERTIFICATE

This is to certify that

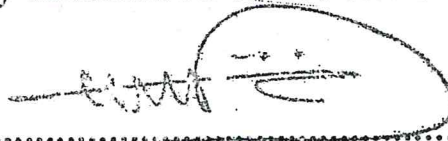

NATHAN MOONO

Having met approved qualifications, training and experience
has been registered as a

Registered Technician

(R. Tec)

and is hereby authorised to use the above title

Chairman

This is to certify Mr./Ms.

MOONO NATHAN

from

2014-06-23

to

2014-07-04

完成此培训项目：

completed the training program for

Core Network Operation & Maintenance Training

该项目包含如下课程

The training program includes

课程编码 (ID)

14A0KECLC401

课程名称 (Courses)

**GGSN9811 Routine Operation and
Maintenance Training**

**SGSN9810 Routine Operation and
Maintenance Training (ATCA)**

GPRS/UMTS PS Fundamental Training

**GU UMG8900 Operation and
Maintenance Training**

**MSOFTX3000 (ATCA) Operation and
Maintenance Training**

Of Participation

This is to certify that

Nathan Moono

has successfully completed the training courses of

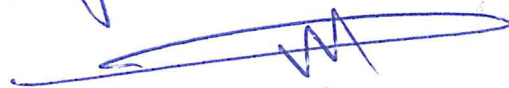

**Level B of ZXSDR-BTS Commissioning
Introduction Course**

Date: From 2013/04/04

Till 2013/04/08

ID: 13IUGUB30605

Moono Nathan

Level A of NGN and Passed the Examination

Address: D. 11, Guangzhou, China

P.O. BOX 32049 LUSAKA

over the 24 h sampling period.

Exploration: Network Fundamentals

sco Networking Academy® course, administered by the undersigned instructor, is hereby certified to be an approved course for the Cisco Networking Academy® course.

- How communication works in data networks and the role of protocols in data networks
- the devices and services that are used to support communications across an Internet network
- the importance of addressing and naming schemes in layers of data networks
- the protocols and services provided by the network layer in the OSI model and describe how this relates to sample networks
- the operations and features of the transport layer and services
- Analyze the operations and functions of network protocols and services and explain the role of routing
 - Design, calculate, and apply network protocols
 - Describe the operation of protocols in the network layer
 - Explain the role of physical layer protocols in the network layer
 - Build a simple Ethernet network
 - Use Cisco® CLI commands to configure and verify network operations and services

Exploration: LAN Switching and Wireless

Cisco Networking Academy® course, administered by the undersigned instructor, is hereby certified:

basic switching concepts and the operation and configuration of Cisco switches
 enhanced switching technologies such as VLANs, Trunking Protocol (VTP), Rapid Spanning Tree Protocol (RSTP), Per VLAN Spanning Tree Protocol (PVST+), and 802.1q
 and describe the purpose of the components in a wireless network, such as Service Set Identification (SSID), Basic Service Set (BSS), and Extended Service Set (ESS).

- Configure, verify, and troubleshoot Cisco® switches, interVLAN routing, and wireless LANs
- Identify, prescribe, and resolve media issues, configuration errors, and switch hardware failures

Exploration: Accessing the WAN

Cisco Networking Academy® course, administered by the undersigned instructor, is hereby certified to be completed by the student.

The impact of Voice Over IP and Video Over IP
on a network
The components required for network and
communications
The basic switch security measures such as port
security, trunk access, and management VLANs
The verification and troubleshooting of DHCP and DNS
on a router
The functions of common security appliances and
configurations

- Describe, configure, apply, and verify Access Control Lists based on traffic
- Explain, configure, verify, and troubleshoot Address Translation (NAT)
- Configure and verify basic routing protocols including serial, Point-to-Point, and OSPF
- Describe the importance, configuration, and components of VPN technologies
- Describe recommended security configurations for network devices

This is to certify that:

MR / MRS / MISS **NATHAN MOONO**

NRC NUMBER: **118605/18/1** **STAFF NUMBER:** **30491**

..... was a registered student of the Zambia Telecommunications Staff Training College.

Successfully completed training in :

SWITCHING

Conducted from **16.10.2000** to **07.11.2003**

His/Her performance was as follows:

	MODULE/COURSE CONTENT	GRADE
1.0	300 ELECTRICAL PRINCIPLES	B
2.0	301 ELECTRONICS COMPONENTS & CIRCUITS	C
3.0	302 DIGITAL ELECTRONICS & BASIC COMPUTERS	A
4.0	303 TELECOMMUNICATIONS APPRECIATION	B
5.0	551 OPERATION & MAINTENANCE OF OCBE10B	B
6.0	552 NEAX 61E	B
7.0	554 CDMA WLL	A
